South Carolina College of Pharmacy Fall Symposium 2017 November 4, 2017 · 715 Sumter Street, Coker Life Sciences Room 215, Columbia, SC 29208

Target Audience: Pharmacists and Technicians

Agenda:

7:45am-8:15am **Registration/Check-In and Welcome**

The Opioid Epidemic: What's a Pharmacist Supposed to Do? (1.0 hrs.) ACPE# 0062-8:15am-9:15am

0000-17-168-L03-P/T

Gene Reeder, PhD, RPh, Professor and Director of Outcomes Research at the Kennedy Pharmacy Innovation

Center, USC

At the completion of this activity, the pharmacist and pharmacy technician will be able to:

- Describe the scope of the opioid abuse problem in the US
- Identify red flag indicators that can help detect illegitimate opioid prescriptions
- Recall the attributes of a valid patient-physician relationship •
- Define the legal concept of "corresponding responsibility" and how it relates to dispensing a controlled substance prescription
- Identify five management strategies to reduce the risk of liability for dispensing controlled substance • prescriptions
- Discuss a case involving controlled substances and a patient overdose •

Immunization Update 2017 (1.5 hrs.) ACPE# 0062-0000-17-167-L06-P/T 9:15am-10:45am

Betsy Blake, PharmD, BCPS, Clinical Associate Professor and Director of Interprofessional Education, USC At the completion of this activity, the pharmacist will be able to:

- Describe best practices for pharmacy-based immunization delivery
- Describe key components of the updated SC Pharmacy Practice Act regarding immunizations •
- Review the 2017 Advisory Committee on Immunization Practices (ACIP) recommendations regarding adult • and pediatric immunizations and discuss changes in the schedules
- Discuss available influenza vaccine products for the 2017-2018 season •

Evaluate specific patients' immunization histories to determine appropriate vaccine recommendations

- At the completion of this activity, the pharmacy technician will be able to:
 - Describe best practices for pharmacy-based immunization delivery
 - Identify opportunities to improve vaccination rates
 - Describe the role of the pharmacy technician in improving the efficiency of immunization delivery

10:45am-11:00am **Break**

11:00am-12:30pm Updates in the Treatment of Heart Failure (1.5 hrs.) ACPE# 0062-0000-17-169-L01-P/T

Brie Dunn, PharmD Associate Dean for Outcomes Assessment and Accreditation and Clinical Associate Professor, USC

At the completion of this activity, the pharmacist will be able to:

- Discuss the advantages and disadvantages of newly approved treatments for heart failure.
- Given a patient scenario, develop an evidence-based treatment regimen for heart failure based on updated quidelines.
- List general approaches to preventing drug-induced exacerbation of heart failure.
- Describe potential options and strategies available to improve medication adherence and optimize transitions of care
- At the completion of this activity, the pharmacy technician will be able to:
 - Discuss the advantages and disadvantages of newly approved treatments for heart failure.
 - Review important safety considerations with the new agents.
 - Describe potential options and strategies available to improve medication adherence and optimize transitions of care.

12:30pm-1:30pm Lunch (provided)

1:30pm-3:30pmA Patient-Centered Approach to Self-Care (2 hour) ACPE# 0062-0000-17-170-L01-P/T

Patricia Fabel, PharmD, BCPS, Clinical Associate Professor and the Executive Director of the Kennedy Pharmacy Innovation Center, USC

At the completion of this activity, the pharmacist will be able to:

- Recognize symptoms and conditions that might be treated with nonprescription medications.
- Recall active ingredients, doses, directions, adverse events, precautions and contraindications of available OTC products.
- Differentiate situations in which non-pharmacologic treatments, a nonprescription recommendation, and/or a
 physician referral would be appropriate.
- Utilize the Pharmacists' Patient Care Process to create a comprehensive self-care treatment recommendation.
- Justify self-care treatment recommendations using patient-specific information, drug information facts, and evidence-based medicine.

At the completion of this activity, the pharmacy technician will be able to:

- Recognize symptoms and conditions that might be treated with nonprescription medications.
- Recall active ingredients, doses, and directions of available OTC products.
- Identify situations in which non-pharmacologic treatments would be appropriate.
- Identify components of the Pharmacists' Patient Care Process where a technician can assist a pharmacist in designing and implementing a self-care treatment recommendation
- Discuss the evidence behind certain self-care recommendations.

Registration Information

- Early registration required to receive discounted rate of \$110 for pharmacists and \$79 for technicians (includes continental breakfast and box lunch)
- We encourage you to register on line at <u>http://SCCP.learningexpressce.com</u>
- Registrations will increase by \$10 after October 27, 2017 to \$120 for pharmacists and \$89 for technicians.
- You may call or email for more information: (803) 777-9979 or email ce@cop.sc.edu

Accreditation: The South Carolina College of Pharmacy is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. This program has been accredited for 6.0 live contact hours (0.6 CEUs) for pharmacists and pharmacy technicians, including 1 hour of law. Participants must sign in and attend all sessions for maximum credit. Participants must complete an on-line evaluation within 30 days to facilitate transmission to the CPE Monitor. Failure to provide correct and/or complete information may result in your activity not being reported to the CPE Monitor. ACPE now requires that all credit be claimed and reported within 60 days after the live event. This is a knowledge based learning activity.

SCCP reserves the right to cancel the entire program. In the event of a cancellation, each participant will be notified via email prior to the program and a full tuition refund will be made.

Cancellation Policy: All refunds should be requested in writing on or before October 27, 2017 and will be subject to a \$6 administrative fee. No cancellation requests will be accepted after October 27, 2017.

Please note fees will show as "Learning Express" on credit card statement.
