Webinar

---

### Learning Outcome:

The participant will be able to increase awareness of medication errors and apply strategies to improve medication safety.

---

### Description:

Medication errors continue to persist in practice. This two hour webinar was designed to enhance awareness of medication errors and safety systems, as well as increased vigilance in the safety of medications.

---

### Speaker:

Kristy L. Brittain, PharmD, BCPS, CDE  
Associate Professor, South Carolina College of Pharmacy/Clinical Pharmacy Specialist, Medical University of South Carolina

---

### Learning Objectives:

*At the completion of this activity, the pharmacist and pharmacy technician will be able to:*

1. List common types of medication errors.
  2. Discuss how human factors impact delivery of health care.
  3. Describe strategies to reduce medication errors and improve patient safety.
  4. Identify appropriate methods to improve patient safety, given a scenario.
-

### **Continuing Education Credit:**

The University of South Carolina College of Pharmacy is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. This program is accredited for a total of **2.0 live contact hours** (0.2 CEUs) for pharmacists and pharmacy technicians (ACPE UAN **0062-9999-21-004-L05-P/T**).

This is a knowledge-based program.

To claim credit, participants must sign-in and attend the entire session (no partial credit will be issued). Participants must complete an online evaluation within 30 days (providing their correct NABP e-profile number and day/month of birth) in order to have credit reported to the NABP CPE Monitor (detailed instructions will be provided at the conclusion of the program). All credit must be claimed and reported within 60 days per NABP policy.
