

SCSHP Annual Meeting March 2-3, 2023

Thursday, March 2, 2023		
8:00 am – 8:15 am	Meeting Opening & Introductions	
8:15 am - 9:15 am	 The Current State of Health-System Pharmacy Practice Paul W. Bush, PharmD, MBA, BCPS, FASHP; Vice President, Global Resource Development & Consulting, ASHP ACPE UAN 0062-9999-23-035-L04-P/T, 1.0 contact hours, knowledge-based activity At the completion of this activity, the pharmacist and pharmacy technician will be able to: 1. Summarize trends in hospital pharmacy practice, including the adoption of best practices and Practice Advancement Initiative (PAI) 2030 recommendations 2. Explain results of the ASHP National Survey of Pharmacy Practice related to current challenges in health-system pharmacy practice 	
9:15 am - 10:15 am	 Vaxxed to the Max: Immunizations Updates Kayla Antosz, PharmD; Lead Antimicrobial Stewardship Pharmacist Antimicrobial Stewardship Collaborative of South Carolina (ASC-SC) Clinical Instructor, USC College of Pharmacy Reagan Barfield, PharmD, BCPS; Clinical Assistant Professor & Ambulatory Care Pharmacist, USC College of Pharmacy; PGY1 Residency Program Coordinator, Tandem Health <i>ACPE UAN 0062-9999-23-043-L06-P/T, 1.0 contact hours, knowledge-based activity</i> <i>At the completion of this activity, the pharmacist and pharmacy technician will be able to:</i> Review the current CDC immunization schedules Identify recently updated ACIP recommendations for routine vaccinations in adult patients Discuss hepatitis B, influenza, pneumococcal, zoster, and COVID-19 vaccine schedules Summarize recommendations regarding MMR, meningococcal, and varicella vaccines 	
10:15 am – 10:30 am	Break	
10:30 am - 11:30 pm	 2022 Year in Review: Updates in Anticoagulation Joe Kramer, PharmD, BCPS, BCCCP; Clinical Pharmacy Manager, Trident Medical Center ACPE UAN 0062-9999-23-044-L01-P/T, 1.0 contact hours, knowledge-based activity At the completion of this activity, the pharmacist will be able to: Select an appropriate strategy for perioperative anticoagulant management Discuss recent shifts in the evidence-based management of anticoagulation after ischemic stroke Examine potential new anticoagulant therapies under investigation At the completion of this activity, the pharmacy technician will be able to: Review appropriate treatments for perioperative anticoagulant management Identify factors that impact the timing of anticoagulation after ischemic stroke Recognize potential new anticoagulant therapies under investigation 	
11:30 am - 12:30 pm	 Taking the "Failure" out of Heart Failure Jason S. Haney, PharmD, BCPS, BCCCP; Associate Professor, MUSC – College of Pharmacy <i>ACPE UAN 0062-9999-23-045-L01-P/T, 1.0 contact hours, application-based activity</i> <i>At the completion of this activity, the pharmacist will be able to:</i> Compare and contrast the classifications and stages of heart failure (HF) Apply therapeutic principles from the new 2022 AHA/ACC/HFSA heart failure guidelines, including initiation and titration of guideline-directed medical therapies (GDMT), to patient-specific scenarios Describe when and how additional medical therapies (beyond the core four GDMT) should be integrated into the management of HF with reduced ejection fraction (HFrEF) Explain practical strategies to mitigate potential barriers to GDMT initiation <i>At the completion of this activity, the pharmacy technician will be able to:</i> Compare and contrast the classifications and stages of heart failure (HF) Identify treatment options from the new 2022 AHA/ACC/HFSA HF guidelines for the different HF classifications Recognize potential barriers to guideline-directed medical therapy (GDMT) initiation 	

12:30 pm – 2:00 pm	Lunch and Townhall
2:00 pm –	2023 Clinical Pharmacy Challenge
3:00 pm	ACPE UAN 0062-9999-23-046-L01-P/T, 1.0 contact hours, knowledge-based activity
	At the completion of this activity, the pharmacist and pharmacy technician will be able to:1.Recall pharmacy trivia related to pharmacology, pharmacokinetics, pharmacodynamics, pharmacogenomics, clinical pharmacy history, biostatistics, and health outcomes
	2. Summarize clinical knowledge in response to a case vignette using supporting laboratory, physical examination, and medical history information
	3. Discuss numerous drug therapy and specialty areas through response to pharmacotherapy questions
3:00 pm –	2023 Platform Presentations
4:00 pm	ACPE UAN 0062-9999-23-047-L01-P/T, 1.0 contact hours, application-based activity
	 At the completion of this activity, the pharmacist and pharmacy technician will be able to: Evaluate the differences in lipid-lowering pharmacotherapy practices in Type 2 diabetes mellitus between rural and urban fairly qualified health center practice sites
	2. Evaluate the use of sodium zirconium cyclosilicate in critically ill patients
	3. Discuss COVID-19 vaccine enthusiasm and hesitancy amongst rural South Carolina populations
4:00 pm – 5:00 pm	Managers & Directors Workshop: Does a Centralized Pharmacy make Sense for a Health System?
5.00 pm	
	Ken Jozefczyk, MS, RPh, FASHP, BCSCP; Director Centralized Pharmacy Services, BayCare Health
	System ACPE UAN 0062-9999-23-048-L04-P, 1.0 contact hours, knowledge-based activity
	At the completion of this activity, the pharmacist will be able to:
	1. Describe the types of services most commonly offered by health system based Centralized Pharmacy Services
	2. Describe the advantages of placing a centralized pharmacy within a multipurpose shared services facility versus
	operating a standalone pharmacy
	3. List two potential criticisms of operating a centralized pharmacy
4:00 pm – 5:00 pm	Pharmacist Networking Session / Student Networking Session (no ACPE credit awarded)
5:00 pm – 6:30 pm	Poster Presentations / Pharmacy Leaders Reception (no ACPE credit awarded)

Friday, March 3, 2023		
8:00 - 8:15	Welcome	
8:15 am –	Battling Hyperlipidemia in South Carolina: A Focus on Non-Statin Therapies	
9:15 am	Carrington Royals, PharmD; Clinical Pharmacist, Tandem Health	
	ACPE UAN 0062-9999-23-049-L01-P/T, 1.0 contact hours, application-based activity	
	At the completion of this activity, the pharmacist and pharmacy technician will be able to:	
	1. Describe the landscape of hyperlipidemia within South Carolina and its subsequent implications	
	2. Identify the key differences between non-statin therapies and their place in therapy	
	 Formulate patient-specific questions to gain the most important information for building an appropriate treatment plan Apply the updated hyperlipidemia guidelines and treatment options to patient cases 	
	At the completion of this activity, the pharmacy technician will be able to:	
	1. Describe the landscape of hyperlipidemia within South Carolina	
	2. Identify the key differences between non-statin therapies	
	3. Apply the updated hyperlipidemia guidelines and treatment options to patient cases	
9:15 am –	"One Size Does Not Fit All": Clinical Updates on Weight Management	
10:15 am	Jennifer N. Clements, PharmD, FCCP, FADCES, BCPS, CDCES, BCACP, BC-ADM; Clinical Professor and	
	Director of Pharmacy Education, University of South Carolina College of Pharmacy	
	ACPE UAN 0062-9999-23-050-L01-P/T, 1.0 contact hours, application-based activity At the completion of this activity, the pharmacist and pharmacy technician will be able to:	
	1. Evaluate treatment options for weight management, specifically weight loss	
	 Identify the risks and benefits associated with anti-obesity medications 	
	3. Summarize potential barriers to anti-obesity medications	
10:15-10:30	Break	
10:30 am –	Prevention and Detection of Medication Diversion in the Hospital Setting	
11:30 am	Sarah Bush Mattmuller, PharmD, BCPS; Assistant Director of Pharmacy, Trident Medical Center	
	ACPE UAN 0062-9999-23-051-L04-P/T, 1.0 contact hours, knowledge-based activity	
	At the completion of this activity, the pharmacist and pharmacy technician will be able to:	
	1. Recognize the prevalence of medication diversion in the hospital setting	
	2. Describe components of a medication diversion prevention and detection program	
	3. Identify methods to detect medication diversion	
11:30 am –	 Discuss reporting requirements following suspected or confirmed medication diversion 2023 Pharmacy Law Review 	
12:00 pm		
12.00 pm	Nancy Taylor, RPh, CDCES; Assistant Professor, Presbyterian College School of Pharmacy	
	ACPE UAN 0062-9999-23-052-L03- P/T, 0.50 contact hours, knowledge-based activity At the completion of this activity, the pharmacist and pharmacy technician will be able to:	
	1. Identify and explain the newest legislation impacting pharmacy practice	
	 Review older regulations and requirements that may cause board citations or confusion in your pharmacy 	
12:00 pm –	Pushing Pee: Nuances in the Management of Urinary Tract Infections	
12:30 pm	Michael K. Shaw, PharmD; PGY2 Infectious Diseases Pharmacy Resident, Prisma Health	
•	ACPE UAN 0062-9999-23-053-L01-P/T, 0.50 contact hours, knowledge-based activity	
	At the completion of this activity, the pharmacist and pharmacy technician will be able to:	
	1. Review the etiology and current guideline recommendations for the management of urinary tract infections	
	2. Discuss the primary literature surrounding duration of therapy for urinary tract infections in the male population	
	3. Discuss the primary literature surrounding the safety and efficacy of urinary tract infection prophylaxis in high-risk	
40.00 0.00	populations	
12:30 - 2:30	Annual Awards Lunch & Board Instillation	
2:30 pm – 3:30 pm	Resident Rapid-Fire Presentations	
5.50 pm	Abbie L. Blunier, PharmD; PGY1 Acute Care Pharmacy Resident, Prisma Health Richland	
	Jake Crocker, PharmD; PGY1 Acute Care Pharmacy Resident, Prisma Health Richland	
	Cassidy Kemp, PharmD; PGY2 HSPAL Pharmacy Resident, Prisma Health Richland	
	Justin White, PharmD; PGY1 Pharmacy Resident, Bon Secours St. Francis Downtown	
	ACPE UAN 0062-9999-23-054-L01-P/T, 1.0 contact hours, knowledge-based activity	
	At the completion of this activity, the pharmacist and pharmacy technician will be able to:	
	1. Identify antifungal agents in the pipeline and their potential role in therapy	
	 Discuss potential treatment strategies for persistent methicillin-susceptible Staphylococcus aureus (MSSA) bacteremia Utilize temperature excursion resources to optimize temperature excursion management 	
	 Utilize temperature excursion resources to optimize temperature excursion management Review the role of terlipressin in the management of hepatorenal syndrome 	
3:30 pm	Adjournment and Evaluations	

CONTINUING EDUCATION ACCREDITATION INFORMATION: The University of South Carolina College of Pharmacy is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. The target audience for these continuing advection activities is pharmacity and pharmacy technicians who are engaged in the second seco

continuing education activities is pharmacists and pharmacy technicians who are engaged in health-systems pharmacy practice. Please see each session for CE available for pharmacists and/or technicians, faculty information, ACPE UANs, learning objectives, and CEU designations. Sessions shaded in gray are not CE-accredited sessions.

To claim CE credit, participants must attend sessions in their entirety (no partial credit will be awarded for attendance at a portion of a session) and must participate in all active learning activities and learning assessments through the virtual platform. In order to have CPE credit reported to the NABP CPE Monitor, participants must have their virtual attendance verified and must follow the "Instructions to Claim Credit" which will be provided to participants. This includes completing program and speaker evaluations at http://cop.sc.learningexpressce.com within 30 days and providing the correct NABP e-Profile ID and day/month of birth upon registration. Any credit not claimed within 60 days of the live event will be rejected by the NABP CPE Monitor. Please contact CE@cop.sc.edu or 803-777-9979 with any questions.

REGISTRATION AND FEES: Please visit <u>https://scshp.com/meetinginfo.php</u> to view all information regarding registration fees and to register for the meeting.
