PROGRAM DESCRIPTION

This one-day program will present diverse topics in relation to diabetes management and diabetes across the continuum of life. The topics to be discussed: Cardiovascular and Medications, Management of Type 2 DM, Personal Journey, Nutrition, DAC Toolkit and Prevention.

The goal of this program is to provide healthcare providers the knowledge and tools to assist them in providing quality care related to diabetes management. There will be opportunities for networking and visit with exhibitors.

LEARNING OUTCOMES

At the completion of this workshop, the participant will be able to:
(In reference to Diabetes Management)

- Examine cardiovascular disease burden in patients with Type 2 DM and cardiovascular outcome trial design
- Choose the most appropriate patient-centered treatment for an individual with Type 2 DM
- Recall a personal journey with diabetes that has been managed through a ketogenic diet and technology
- Describe lifestyle medicine practices, tools and resources for preventing and managing diabetes
- List resources available through the SC Diabetes Advisory Council toolkit
- Describe the process of starting a diabetes prevention program and best practices
